

Proper Disposal of Leaves

It is unlawful in the Village of Alsip to burn leaves, branches, brush, or other debris outdoors on either public or private property. This illegal burning creates a dangerous health and fire hazard. It is also unlawful to dump or deposit leaves onto the roadway. Dumping leaves onto the roadway can create unnecessary hazards such as localized flooding caused by blocked storm sewers or slippery driving conditions on the pavement.

To safely dispose of leaves, residents should place them curbside in a closed paper bag for pickup with your household garbage. Loose leaves piled either on the parkway or roadway, and garbage mixed with leaves will not be picked up.
